Expose the organizational domino mail to Internet

Install and configure WebSphere Edge Components to act as a Reverse Proxy for Lotus iNotes DWA and prepare to incoming integration with WebSphere Portal Server

Role: Configurator

Tool & Technology used: Lotus iNotes 8.5.2, Edge Components 7.0, IHS 7.0 RHEL 5.4

WPS MIGRATION

01/2011 – 07/2011

Project Description & Assignments descriptions:

WebSphere Portal Server infrastructure migration from 6.0 to 6.1.5

- Installing and Configuring
- Managing Security
- Customizing and Administering
- Creating script for the generation of Database Schema

Role: WebSphere Portal Server infrastructure administrator

Tool & Technology used: WPS 6.0, 6.1, 6.1.5, Oracle 9g, 11i RAC, RHEL 5.4

WEBSHERE PORTAL DIRECTORY INTEGRATION

12/2010 – 12/2010

Project Description & Assignments descriptions:

Integration of WPs 6.1.5 and user Directory

Configure de WPS Integration with MS AD2003 as Federated Repository with multiple realms

Role: Configurator

Tool & Technology used: WPS 6.1.5 , MS AD2003 RHEL 5.0

WEBSPHER PORTAL TUNING

05/2010 – 05/2010

Project Description & Assignments descriptions: Tuning to enhancing performance of WPS

Review, Monitoring and correct the value of Threads, JVM Heap Size, behavior of WPS, enable trace _

Role: Configurator

Tool & Technology used: WPS 6.0, Rational RHEL 4.0

WEBSPHER APPLICATION SERVER CLUSTER IMPLEMENTATION

05/2010 – 05/2010

Project Description & Assignments descriptions:

Clustering WebSphere Application Server for management administration system (sigma) , Application deployment, performance monitoring

Role: Configurator

Tool & Technology used: WAS 7.0 SLES 10SP2

TIVOLI INDENTITY MANAGER INTEGRATION

01/2011 – 01/2011

Project Description & Assignments descriptions:

Integrate the ITIM with WPS and SIGMA (management administration system)

Role: Middleware Integrator and Configurator

Tool & Technology used: ITIM 5.1 WPS 7.0, SLES 10SP2

SALES SUPPORT

Project Description & Assignments descriptions: POD and POC implementation, to make technical proposals, requirements elicitation and advisory work

Role: Design Engineer, Consultant

Tool & Technology used: Listed Below

Key Skills

Operating Systems:

Desktop

Windows 95/Vista/
Fedora

Server

2003/2008
Linux Slackware
Red hat 4.0 - 6.0
Suse Enterprise Linux 10sp2, 11
Solaris 9/10

Languages:

Java SE 6.0 Basic level

PHP 5.0 Basic level

RDBMS:

DB2 9.x(Deployment role), Oracle 10g (Deployment role), MySQL

IBM:

WebSphere Application Server (Administration and Deployment role)

WebSphere Portal Server (Administration and Deployment role)

Lotus WebContent Management (Administration and Deployment role)

Lotus Sametime (Administration and Deployment role)

Lotus Quickr (Administration and Deployment role)

Lotus Connections (Administration and Deployment role)

Tivoli Directory Integrator (Administration and Deployment role)

Tivoli Identity Manager (Administration and Deployment role)

Tivoli Directory Server (Administration and Deployment role)

Applications:

MS Active Directoy (Administration and Deployment role)

MS Share Point (Administration and Deployment role)

**Key Courses
and Training**
